

Winter is on the way. If it's anything like last year, we will have to be ready!

In your home:

1. Check your heater to make sure it is running well
2. Check the heater filter. Buy inexpensive filters & replace them each month
3. Have a 3-day supply of non-perishable food
4. Have candles, a flashlight, and spare batteries
5. Have salt and fertilizer to use on steps and walkways
6. Make sure your cellphone is charged
7. Keep in touch with family and friends
8. County snow removal is available for 4 inches or more and the snow must have stopped. (856) 783-4808 ext. 5060

If you drive:

1. Have your battery checked to see if it is working properly
2. Have plenty of gas in the tank
3. Have blankets on hand
4. Have a flashlight
5. Have your cellphone fully charged
6. Have salt and sand for the spinning tires
7. Let family or friends know where you are going

Don't Be Scared. Be careful. Stay safe.
